

Dotted Antistatic Gloves

A181

Material	- Palm: Cotton lining with PVC dotted. - Back: Polyester with a conductive line every 10mm.
Design & Features	- A Top pvc dotted palm antistatic gloves is made with non slip features. It has an improved grip with excellent sweat absorbency. The gloves are washable and provide good electrical property.
Colour	- White with carbon lines.
Application	- Suitable for industry that involved in Microelectronics assembly and packing where static control and product handling is a concern.
ESD Properties	- 10 7 - 108 ohm
Dimensions	- S, M, L
Packing	- 10pairs/pack

Antistatic Gloves

A180

Material	- Polyester with a conductive line every 10mm.
Design & Features	- A Top antistatic gloves is made of continuous filament polyester. It has an improved grip with dust free features. The gloves are washable and provide good electrical property.
Colour	- White with carbon lines.
Application	- Suitable for industry that involved in Microelectronics assembly and packing where static control is a concern.
ESD Properties	- 10 7 - 108 ohm
Dimensions	- S, M, L
Packing	- 10pairs/pack

PU Fingertip Coated Gloves

A190

Material	- Nylon with Polyurethane coated fingertip.
Design & Features	- A Top Nylon gloves are coated with high grade polyurethane. It is dust and lint free, breathable, non-slippery, lightweight, well ventilated and elastic. Excellent for intricate operations that require sensitive touch and dexterity.
Colour	- White.
Application	- Suitable for delicate sensitive works, small parts handling and to eliminate fingerprint contamination at assembly and manufacturing environment.
ESD Properties	- < 1012 ohm
Dimensions	- S, M, L
Packing	- 1pairs/pack - 12 pack / bag

PU Coated Gloves

A191

B191

Material	- Nylon with Polyurethane coated fingertip.
Design & Features	- A Top Nylon gloves are coated with high grade polyurethane. It is dust and lint free, breathable, non-slippery, lightweight, well ventilated and elastic. Excellent for intricate operations that require sensitive touch and dexterity.
Colour	- White.
Application	- Suitable for delicate sensitive works, small parts handling and to eliminate fingerprint contamination at assembly and manufacturing environment.
ESD Properties	- < 1012 ohm
Dimensions	- S, M, L
Packing	- 1pairs/pack - 12 pack / bag
